

AVIF0039 – Utilise emergency breathing system

RHO Aviation Training Services provides Aviation Industry Utilise emergency breathing system (**AVI UEBS**) training that develops the skills & knowledge that are required to utilise emergency breathing systems in conjunction with AUES. The course covers – Prepare an EBS for use, Operate an EBS & Complete EBS post-operational procedures.

This unit addresses aviation technical skill requirements (physical, mental and task-management abilities) related to safety management duties of flight crews and contributes to safe and effective performance in complex aviation operational environments.

Operations are conducted as part of recreational, commercial and military aircraft activities across a variety of operational contexts within the Australian aviation industry.

AVIF0039 - Utilise emergency breathing system.

DURATION: 1 Day

LOCATIONS / DATES: Check the calendar on the website. Specialising in mobile training, we come to you.

AUTHORITY / REGULATOR

Nationally Recognised Training is developed by the Australian Governments Vocational Education and Training (VET) sector to ensure VET providers and practitioners develop students with the skills and knowledge needed to perform well in the workplace.

PRE-REQUISITES:

Medical Clearance:

Trainees will be required to provide a Medical Specification Form (MSF) prior to commencing the course. The MSF is to be completed by a doctor within 3 months of the commencement of training.

STRUCTURE & ASSESSMENT:

This course encourages trainees to practically demonstrate and apply skills and knowledge to safely operate EBS. Practical activities involve pre and post operational checks and operate an EBS. Trainees will be assessed using direct observation, oral and/or written assessment, and practical exercises including simulating helicopter ditching scenarios.

CERTIFICATION:

Upon successful completion of the training, trainees will be issued with a Statement of Attainment in:

- AVIF0039 Utilise emergency breathing system

SKILL MAINTENANCE:

To maintain and align with industry expectations and to ensure ongoing competence and workplace capability, RHO Aviation recommends skills maintenance to be undertaken every 2 years.

SO WHY TRAIN WITH RHO AVIATION?

RHO Aviation provides safe compliant training and all of our instructors have comprehensive knowledge and experience in the subjects they teach.
